The Pro 240H from **Morclean** is a powerful outdoor vacuum cleaner designed for cleaning up litter and dog faeces from areas where access can be difficult.

It is ideal for removing unsightly and unwanted items such as: dog faeces, paper, stub ends, cans, bottles, glass and leaves from public areas.

Supplied with a 240 litre wheelie bin with or without a trolley, fitted with all-terrain wheels. It can also be fitted to a utility vehicle. An optional bin liner is also available for use with large refuse sacks, keeping the bin hygienic and safe to work with.

This machine is lightweight and effective with all the power you need from a robust 4 stroke Honda engine. With a purpose built and specially designed injection moulded fan and fan housing, suction is vastly improved over previous models. At the same time noise has been drastically reduced, making it a great choice for built up areas.

It is perfect for parks and communal areas. It can be operated by a single user and the added option of a robust steel trolley adds ease of movement.

For any information about this product, please do not hesitate to contact us on **0800 1300 402** or e-mail us at **info@morclean.com**
